DANIEL MBUVI MULATYA

COMPREHENSIVE DEVELOPMENT MANIFESTO

NZAMBANI WARD - KITUI EAST
2027-2032

REPRESENTATION. DEVELOPMENT. ACCOUNTABILITY. OPPORTUNITY.

A SON OF KITUI COUNTY
A SON OF KITUI EAST
A SON OF NZAMBANI

NZAMBANI IS HOME. NZAMBANI IS OUR FUTURE.
LET US BUILD IT TOGETHER.

CANDIDATE PROFILE

Daniel Mbuvi Mulatya is a son of Kitui County, Kitui East and Nzambani Ward. He is a Computer Science graduate, technology professional, entrepreneur and community-minded Kenyan seeking to represent Nzambani Ward in the County Assembly.

His stated approach to public service is built around representation, accountability, development and opportunity, with a commitment to serve the whole ward - across villages, generations, livelihoods and backgrounds.

OFFICE SOUGHT	Member of County Assembly - Nzambani Ward
AREA	Nzambani Ward, Kitui East
TERM	2027-2032
BACKGROUND	Computer Science graduate, technology professional and entrepreneur
CORE APPROACH	Listen - Represent - Legislate - Budget - Oversee - Follow Up - Report Back

Representation principle: If elected, the responsibility of the office will be to the entire Nzambani Ward, regardless of political affiliation, village, age, gender, religion, economic status or background.

MY MESSAGE TO THE PEOPLE OF NZAMBANI

I am Daniel Mbuvi Mulatya, a son of Kitui County, Kitui East and Nzambani Ward.

I am a Computer Science graduate, technology professional, entrepreneur and community-minded Kenyan who believes that leadership must be about service, representation, accountability and development.

I am seeking to represent the people of Nzambani Ward in the County Assembly. I am not seeking this position to represent only one group, one village, one generation or one interest. I seek to represent the whole of Nzambani.

- The farmer.
- The teacher.
- The student.
- The boda boda rider.
- The trader.
- The business owner.
- The mother and father.
- The young person and the elderly.
- The person living with disability.
- The professional, the unemployed and the vulnerable.

Every resident deserves to have their concerns heard.

MY COMMITMENT AS YOUR MCA

An MCA is more than a person who attends Assembly sessions. I want to be an active representative who goes back to the people, understands their problems, takes those concerns to the County Assembly, participates in legislation and budgeting, exercises oversight, and follows up on matters affecting residents.

LISTEN	Go to the people and understand their priorities.
REPRESENT	Take those priorities to the County Assembly.
LEGISLATE	Participate meaningfully in laws and policies affecting Kitui residents.
BUDGET	Fight for fair consideration of Nzambani's priorities during county planning and budgeting.
OVERSIGHT	Ask questions about implementation and public resources.
FOLLOW UP	Engage the relevant institutions when residents' issues require action outside the direct mandate of the Assembly.
REPORT BACK	Keep residents informed about what is happening.

TABLE OF CONTENTS

1 Education - Investing in Our Children
2 Water - A Basic Right and Development Priority
3 Roads and Infrastructure
4 Healthcare
5 Agriculture and Livestock
6 Youth - Skills, Jobs and Opportunities

10 Boda Boda and Transport Workers
11 Sports, Talent and Culture
12 Environment and Climate Resilience
13 Social Protection
14 Security and Community Safety
15 Environment, Drainage and Public Health
16 Governance and Public Participation
17 Fighting for Nzambani at the County Assembly
18 Budget and Development Oversight
19 A Digital and Data-Driven Nzambani
20 The Nzambani Development Register
21 My First Priority: Listening to Nzambani
22 Accountability to the People
23 My Understanding of Leadership
24 The Nzambani We Want
25 My Commitment

DEVELOPMENT PILLARS

The manifesto brings together the ward's social, economic, infrastructure, governance and environmental priorities into an integrated development agenda.

EDUCATION & SKILLS

Schools, TVET, digital literacy and pathways beyond secondary education.

WATER & INFRASTRUCTURE

Water systems, roads, bridges, drainage and access infrastructure.

HEALTH & SOCIAL PROTECTION

Healthcare, community health, vulnerable households and inclusion.

AGRICULTURE & LIVELIHOODS

Farming, livestock, markets, value addition and local enterprise.

YOUTH, WOMEN & OPPORTUNITY

Skills, entrepreneurship, sports, creative industries and economic participation.

GOVERNANCE & ACCOUNTABILITY

Public participation, budgeting, oversight, reporting and follow-up.

DIGITAL NZAMBANI

Data-driven representation, community priorities and transparent project tracking.

ENVIRONMENT & RESILIENCE

Conservation, drought resilience, sanitation and climate-smart development.

1. EDUCATION - INVESTING IN OUR CHILDREN

Education will remain one of my major priorities. My education agenda covers the entire education journey.

DAY PRIMARY SCHOOLS

- Classrooms
- Sanitation
- Water
- Furniture
- Learning environments
- School safety
- Digital literacy
- ICT facilities
- School infrastructure

JUNIOR SECONDARY SCHOOLS

- Classrooms
- Laboratories
- ICT facilities
- Water and sanitation
- Learning materials
- Furniture
- Special-needs facilities
- Safe learning environments

SENIOR DAY SCHOOLS

- Classrooms
- Laboratories
- ICT infrastructure
- Libraries
- Sports facilities
- Water and sanitation
- Career guidance
- Technical and vocational pathways

BEYOND SECONDARY SCHOOL

- TVET institutions
- Universities

- Scholarships
- Skills programmes
- Apprenticeships
- Entrepreneurship
- Digital opportunities

Where our children learn matters. What they learn matters. And what opportunities await them after school matters.

2. WATER - A BASIC RIGHT AND DEVELOPMENT PRIORITY

Water remains fundamental to life and economic activity. I will fight for attention to community water needs and scrutinise implementation so residents can know what was planned, funded and delivered.

- Boreholes
- Community water projects
- Water storage
- Water pipelines
- Rainwater harvesting
- Rehabilitation of failed water projects
- Water for schools
- Water for health facilities
- Water for livestock
- Irrigation where feasible

3. ROADS AND INFRASTRUCTURE

Our roads determine access to markets, schools, hospitals, trading centres, farms and public services.

- Feeder roads
- Village roads
- Access roads
- Bridges
- Drainage infrastructure
- Roads connecting major community facilities

Neglected infrastructure concerns should be raised in the Assembly and with the responsible authorities.

4. HEALTHCARE

Every resident deserves access to basic healthcare. Where residents experience persistent problems, I will take those concerns to the relevant authorities and demand answers.

- Functional health facilities
- Essential medicines
- Adequate staffing
- Maternal healthcare
- Child healthcare
- Community health services
- Preventive healthcare
- Sanitation
- Emergency and referral systems

5. AGRICULTURE AND LIVESTOCK

Our farmers are central to Nzambani's economy.

- Agricultural extension services
- Farmer training
- Climate-smart agriculture
- Drought-resistant farming
- Livestock development
- Veterinary services
- Beekeeping
- Cooperatives
- Aggregation
- Value addition
- Market access
- Agricultural information

Move from simply producing to producing, processing, marketing and earning.

6. YOUTH - SKILLS, JOBS AND OPPORTUNITIES

Our youth should be participants in development, not spectators. As a Computer Science professional, I will particularly promote coding, AI, digital work, software development and digital entrepreneurship.

- TVET
- Vocational training
- Digital skills
- Entrepreneurship
- Apprenticeships
- Sports
- Creative industries
- Technology
- Employment information
- Business opportunities

Nzambani must participate in Kenya's digital economy.

7. WOMEN'S ECONOMIC EMPOWERMENT

- Enterprise opportunities
- Skills
- Markets
- Cooperatives
- Agricultural value chains
- Financial literacy
- Government programmes
- Digital opportunities

Women must be part of the economic development conversation.

8. PERSONS WITH DISABILITIES AND VULNERABLE RESIDENTS

Development must include everyone.

- Accessible public facilities
- Inclusion in county programmes
- Skills development
- Economic opportunities
- Better access to information
- Support for vulnerable households

A person's disability should not prevent them from participating in community life and economic activity.

9. TRADE, MARKETS AND SMALL BUSINESSES

Small businesses keep our local economy moving.

- Better trading facilities
- Cleaner markets
- Appropriate market infrastructure
- Support for MSMEs
- Entrepreneurial training
- Cooperative development
- Digital business tools
- Better access to market information

10. BODA BODA AND TRANSPORT WORKERS

Boda boda riders are part of Nzambani's transport and economic system.

- Road conditions
- Safe operating environments
- Training
- Economic opportunities
- Access to legitimate government programmes
- Community safety

They should be treated as economic participants and stakeholders.

11. SPORTS, TALENT AND CULTURE

- Sports grounds
- Youth tournaments
- Talent development
- Music
- Arts
- Cultural activities
- Community events
- Talent identification

Our young people need opportunities to develop their abilities.

12. ENVIRONMENT AND CLIMATE RESILIENCE

Kitui faces serious environmental and climate challenges.

• Tree planting

• Land restoration

• Water conservation

• Drought resilience

• Sustainable agriculture

• Environmental education

• Protection of community resources

Development must also protect the environment that supports our communities.

13. SOCIAL PROTECTION

I will pay attention to residents who are often left behind and advocate for better access to legitimate government and community support programmes.

• Older persons

• Orphans and vulnerable children

• Persons with disabilities

• Vulnerable households

• People facing extreme economic hardship

14. SECURITY AND COMMUNITY SAFETY

Security is fundamental to development. While recognising the different responsibilities of national and county institutions, I will raise community security concerns with the appropriate authorities.

- Community safety
- Lighting where appropriate
- Safe public spaces
- Youth engagement
- Disaster preparedness
- Cooperation between communities and responsible security institutions

15. ENVIRONMENT, DRAINAGE AND PUBLIC HEALTH

Clean communities are healthier communities.

- Waste management
- Drainage
- Public sanitation
- Clean markets
- Environmental protection
- Community cleanliness

16. GOVERNANCE AND PUBLIC PARTICIPATION

People should not hear about county decisions only after they have been made. Residents should have opportunities to contribute to discussions around county budgets, development plans, projects, policies and local priorities.

PUBLIC PARTICIPATION SHOULD BE MORE THAN A MEETING.

People should understand what is being proposed, why it matters, what resources are involved and what happens afterward.

17. FIGHTING FOR NZAMBANI AT THE COUNTY ASSEMBLY

When Nzambani has a legitimate concern, I will take it to the Assembly and the relevant institutions.

- Delayed projects
- Poorly implemented projects
- Missing infrastructure
- Water problems
- Roads
- Healthcare
- Education
- Agriculture
- Youth
- Markets
- County services
- Public resources
- Community concerns

I WILL TAKE THE ASSEMBLY BACK TO THE PEOPLE.

What was raised. What was discussed. What was agreed. What requires follow-up. What has been implemented.

18. BUDGET AND DEVELOPMENT OVERSIGHT

County development requires resources. I will participate actively in the county budgeting process and advocate for priorities affecting Nzambani.

- Was the money allocated?
- Was the project implemented?
- Was it completed?
- Was value received for public money?
- What happened when implementation failed?

The people deserve accountability for public resources.

19. A DIGITAL AND DATA-DRIVEN NZAMBANI

My technology background gives me a different perspective on public representation. I want to use technology to improve communication and accountability.

- Community priorities
- Development projects
- Project status
- Public concerns
- School infrastructure needs
- Water needs
- Road priorities

The purpose is not technology for its own sake. The purpose is better information, better follow-up and better representation.

20. THE NZAMBANI DEVELOPMENT REGISTER

A comprehensive ward development register can help turn community concerns into organised development priorities.

COMMUNITY PRIORITY
Village, school, group or resident concern

↓

ASSEMBLY ACTION
Question, motion, committee action, legislation or representation

↓

BUDGET
Planning, allocation and prioritisation

↓

IMPLEMENTATION
Responsible county or other public institution

↓

STATUS & REPORT BACK
Planned - Funded - Ongoing - Completed - Delayed - Requires follow-up

EDUCATION	Primary - JSS - Senior Day Schools - Skills
WATER	Boreholes - Storage - Pipelines - Irrigation
HEALTH	Facilities - Medicines - Staffing - Community health
INFRASTRUCTURE	Roads - Bridges - Drainage - Public facilities
AGRICULTURE	Farmers - Livestock - Markets - Value addition
YOUTH	Skills - Jobs - Sports - Technology
WOMEN	Enterprise - Cooperatives - Markets
BUSINESS	Markets - MSMEs - Trade
SOCIAL DEVELOPMENT	PWDs - Elderly - Vulnerable households
ENVIRONMENT	Water conservation - Trees - Climate resilience

21. MY FIRST PRIORITY: LISTENING TO NZAMBANI

Before telling residents what their priorities should be, I want to hear from them. I envision structured consultations involving:

- Villages
- Schools
- Farmers
- Youth
- Women
- Traders
- Professionals
- Religious organisations
- Persons with disabilities
- Community groups
- Elders

DEVELOPMENT SHOULD BEGIN WITH THE PEOPLE.

22. ACCOUNTABILITY TO THE PEOPLE

I want residents to judge their representative based on what happens during the entire term, not only during campaigns.

COMMUNITY PRIORITY → ASSEMBLY ACTION → BUDGET → IMPLEMENTATION → STATUS

Where something has not happened, residents should know. Where something has been completed, residents should know. Where responsibility belongs to another level of government, residents should know that too.

23. MY UNDERSTANDING OF LEADERSHIP

I do not believe an MCA should promise to personally construct every road, employ every teacher or operate every hospital. That would create unrealistic expectations.

An effective MCA should know the difference between representation, legislation, budgeting, oversight, County Executive implementation and national government responsibilities.

My promise is therefore not to pretend to control everything. My promise is to fight for Nzambani within the responsibilities and powers of the office, work with the relevant institutions, and keep residents informed.

24. THE NZAMBANI WE WANT

I envision an Nzambani where:

• Our children learn in better schools.

• Our communities have better access to water.

• Our roads connect people to opportunity.

• Our health facilities serve residents with dignity.

• Our farmers can earn more from their work.

• Our young people have skills and opportunities.

• Our women can build stronger enterprises.

• Our traders can grow their businesses.

• Our vulnerable residents are not forgotten.

• Our talented youth have platforms to develop.

• Our environment is protected.

• Our people participate in decisions affecting them.

• Our public resources are subject to scrutiny.

• Our voice is heard in the County Assembly.

25. MY COMMITMENT

I am not asking to represent only the people who support me. If elected, my responsibility will be to the entire Nzambani Ward.

I will represent residents regardless of political affiliation, village, age, gender, religion, economic status or background.

The County Assembly seat belongs to the people. The office is a public trust.

MY VISION

A STRONGER NZAMBANI. A STRONGER KITUI EAST. A STRONGER KITUI COUNTY.

My ambition is to bring together education, water, healthcare, agriculture, infrastructure, youth, women, business, technology, social protection, environment, sports, governance and accountability into one comprehensive development agenda.

Because Nzambani does not have only one problem. Our people deserve representation that understands the whole picture.

I want to be a representative who listens to the people, understands the system, speaks for Nzambani, scrutinises public resources, follows up on development and reports back to the people.

DANIEL MBUVI MULATYA

FOR NZAMBANI WARD

REPRESENTATION THAT LISTENS.

LEADERSHIP THAT FIGHTS FOR THE PEOPLE.

DEVELOPMENT THAT REACHES THE COMMUNITY.

ACCOUNTABILITY THAT RESPECTS PUBLIC RESOURCES.

NZAMBANI IS HOME.
NZAMBANI IS OUR FUTURE.

LET US BUILD IT TOGETHER.
